# Crystal Pro Mount

The crisp, clean edge of the Pro Mount provides a contemporary finish.

The lustre print is bonded to 3mm Black Foamex – an exceptionally high quality, rigid PVC substrate.

The scratch resistant crystal laminate seal, is an acrylic coating to protect the print. While the aluminium subframe allows the product to appear to float from the wall.

\*Standard

# Gallery Block

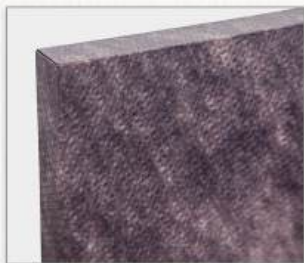

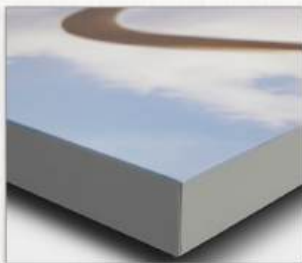

A simple frameless display which is a popular alternative to the canvas.

The gallery block keeps all the print details pin sharp without the material texture.

Choose a coloured edge or image wrap.

# Acrylic

For a show stopping piece, the acrylic creates a striking display. The image is nestled between a 2mm acrylic facemount and a slim aluminium panel with a black core.

Also available as a sphere.

Satin Finish

Pairing a vivid Photographic Gloss print with a subtle 2mm acrylic facemount with a satin finish creates a unique look. The muted sheen across the Acrylic Gallery's surface adds a soft tone to the display while still displaying the image's striking colours.

Gloss Finish

The double-gloss effect this print and acrylic combination creates is fantastic if you're looking to design a bright & bold wall display. The Photographic Gloss print finish is reflective and presents colours vividly. This paired with the thin, gloss acrylic facemount adds a clear sharpness to the overall look and is bound to impress.
